FR JACK

Baptism, the sacrament of entry into the church.

Many people believe in the importance of baptism for their children.

I often wonder why it is not so important for themselves.

Others want it done to get into a Catholic school.

And some want baptism as the door to eternal salvation.

And for most, John's baptism with water is sufficient.

However, the same John tells us that Jesus' baptism was very different.

He tells us that Jesus would baptize with the **Holy Spirit and fire**.

Now these are two powerful and living things. We see how alive and

frightening bushfires have been around the world. They just destroy everything in their

path and are virtually unstoppable. How I wish our Christians were so on fire. But

destroying only everything that is evil.

And then there is the Holy Spirit; that inner dynamo who drives us on to do things we

never knew we could do. The one who changes "the face of the earth."

Who changes me? Who gives me energy and enthusiasm to live as Jesus wants me to

live? Who tells me I am a "Beloved

son"? That every other person is also a

beloved son/daughter and that each one is my brother or sister, that we are family?

This is what will change the face of the Earth.

Everyone please use a mask.

Also, sanitize as you enter and leave the church.
