STEPS

The steps at the back of my house are dangerous and condemned. They will need to be replaced. We hope to start

Fr Jack

We are worth more than many sparrows. Might seem like an insult at first but when we read the whole thing in context it is clear that Jesus, God is crazy about us. But Jesus wants us to respond to him, in that way we become more responsive to him. And in becoming more responsive we become more aware. Our whole problem is the limitation of our mind and heart. We lack a God language to help us appreciate. We fail to look around our world and appreciate the beauty of what God is doing for us. People say they want signs, open your eyes and there are signs everywhere. All the bad signs and things you see or hear are man-made. And sadly, often we blame God.

A willing mind makes a hard journey easy

PECKHAM CITIZENS

Albi from Peckham Citizens will be leading us in a discussion.

Today between the 10 and 12 Mass. Discussing what is keeping our community from thriving.
