Fr Jack

Those of us who are baptised should consider ourselves dead to sin and alive with the life of Christ. Jesus talks about giving a person a cup of water. Seems simple enough in our western world where water is available at the turn of a tap. But for three quarters of the world's population water is like gold. As Pope Francis says:- "Access to safe drinkable water is a basic and universal human right, since it is essential to human survival and, as such, is a condition for the exercise of other human rights. Our world has a grave social debt towards the poor who lack access to drinking water, because they are denied the right to a life consistent with their inalienable dignity. This debt can be paid partly by an increase in funding to provide clean water and sanitary services among the poor.
